## Families Take Note:

# The Ravinia Festival Offers A Summer Full Of Musical Fun!

By Mira Temkin

Imagine taking your kids to a music festival where they can touch and play the instruments, meet the performers, hear a concert and begin a lifelong appreciation of the arts. It's all happening from June - September at The Ravinia Festival, located along the North Shore in Highland Park. Boasting a history that goes back more than one hundred years, this popular outdoor venue gives music lovers a three-month season filled with classical music, jazz, musical theater and pop concerts.

This summer, Ravinia Festival offers families more reasons than ever to visit the park and yes, bring the kids! There are the Kraft Kids Concerts, Kids Club and a special Family Space, unlike anything you've ever seen before. Plus, you can even celebrate your child's birthday at Ravinia.

With a full calendar of classical performances, you can take your kids to an evening of classical music and sit on the lawn. Special tickets are available for children 10 and under for \$5, while kids under five are free. Bring your own picnic or visit the Ravinia Market for kid-friendly dining options.

"Ravinia is a family-friendly venue and reaching young listeners is essential to our mission," says Welz Kauffman, President and CEO of Ravinia Festival. "We pride ourselves on providing great music from all genres for kids of all ages, as well as making Ravinia an affordable option for parents and families. And with kids being able

to physically interact with Ravinia through Family Space and our Kids Club, the festival's philosophy of REACH\*TEACH\*PLAY continues on with new listeners and performers every day."

To join, children can sign

up by visiting Ravinia Gifts, the Kids Club booth at any Kraft Kids Concert or with an adult's permission at [www.ravinia.org/kidsclub.aspx](http://www.ravinia.org/kidsclub.aspx).

Don't forget to pick up your free Family Fun Guide at Ravinia with coloring pages, kid-friendly program notes and activities to do in the park.

### Let Your Kids Hear The Sound Of Music!

Did you know that exposing children to classical music offers real advantages, both mental and physical? Studies show an early exposure to classical music provides children with a lifelong appreciation of melody and beat. "By handling an instrument, fine and gross motor skills can be enhanced," says Karen Stafford of Music Education Madness. She continued, "The most important benefit, however, is the proven positive effects music has on brain development. Youngsters who have this exposure have an advantage in academic abilities, self-esteem, and improved attitudes."

### Concerts For Big Kids, Too

Ravinia also offers a variety of pop concerts with such greats as: Crosby, Stills & Nash, Sting, Peter & Paul's Tribute to Mary, Beach Boys and more. See you at Ravinia this summer...and bring the kids! For tickets, call 847-266-5100 or visit [www.ravinia.org](http://www.ravinia.org). ■
